WATER PACKS

Water Packs help us to live in harmony with nature and support planet Earth. Each pack gives you PiMag® water on-the-go, in your home and even provides you with filtered shower water that's clean enough to drink!

PiMag® Water is alkaline and helps reduce excess acid in our bodies. Alkaline water is easier to absorb, which provides more hydration. When you drink PiMag® water, you also help reduce single-use plastic bottles that pollute our oceans and add to landfills.
